WorkForce DS-30000

Compact, 70ppm, heavy-duty A3 sheetfed scanner with advanced paper protection and image enhancement technology.

The WorkForce DS-30000 is Epson's first compact A3 desktop scanner. Designed for busy office environments, it features a high-capacity feeder, wide media scanning capabilities and a touchscreen front panel that puts users in control to scan up to 30,000 pages per day

Thanks to Epson's new Complex Production Architecture, the DS-30000 has been engineered to the highest standards to meet the demands of busy departments.

High in capacity and with a robust design, the Automatic Document Feeder (ADF) has the ability to scan the widest range of media in its class[1]. Scan passports[2], passbooks, ID cards and large-format documents.

Simplify scanning tasks, putting users in control with a 2.7" backlit touchscreen that can display pre-defined scan jobs and highlights machine cleaning and maintenance requirements with easy-to-follow, step-by-step instructions.

The inbuilt advanced paper-protection sensors also prevent documents from being damaged and ultra-sonic sensors ensure all documents are scanned, maintaining data integrity.

The DS-30000 comes with Document Capture Pro 3.0 software with inbuilt OCR functionality, supporting crisp, clear images. A wide range of drivers, including TWAIN, ISIS, WIA, SANE, and ICA allow for easy integration into most document management systems.

For added flexibility and convenience, the optional A4 (DS-5500) and A3 (DS-50000) flatbed scanners enable scanning of books, bound, and other media.
